

MicroCADD

News Release

MicroCADD Pty Ltd Partners with AEC Systems Pty Ltd to offer combined services under the new Joint Venture “AEC MicroCADD”

Melbourne Victoria, 10th November 2005,

MicroCADD Pty Ltd a leading provider of Autodesk Architectural solutions in Victoria and AEC Systems Pty Ltd a leading National provider of Autodesk based technology solutions are pleased to announce their agreement to enter into a Joint Venture relationship in Victoria Australia.

Commitment to Technology Optimization and Design Productivity.

While MicroCADD and AEC Systems serve complementary markets, the two firms share the same approach to technology implementation and training with commitment to Technology Optimization and Design Productivity. MicroCADD works with many Victorian based architectural firms serving residential, commercial, non-profit, and government clients. AEC Systems Pty Ltd serves architects, structural engineers, building systems engineers, mechanical engineers, civil engineers, surveyors, GIS, facilities management, and other design professionals, in private-sector, non-profit, and government organizations throughout Australia.

Both MicroCADD and AEC Systems' services focus on optimizing clients' use of technology in order to increase design productivity and technology ROI. Both firms offer implementation services that tailor out-of-the-box software to client needs, office standards, and streamlined processes – as well as hands-on software training using client projects to jump start productivity and minimize the loss of billable hours. The Joint Venture extends their ability to delivers services through teams of highly trained and certified professionals with years of experience and expertise in both their relevant design disciplines and technologies.

AEC MicroCADD is now officially accredited by Autodesk Australia and will be a primary solution provider of AutoCAD, AutoCAD LT, Autodesk Revit Building, Autodesk Revit Series, Autodesk Revit Structure, Autodesk Architectural Desktop and 3D Studio VIZ/MAX technologies support and sales throughout Victoria.

This is an exciting time as this joint venture partnership will combine the extensive market knowledge and local expertise from MicroCADD Pty Ltd with the national pool of highly skilled resources of AEC Systems. “We are pleased to partner with MicroCADD,” said Greg Gudgeon, Managing Director of AEC Systems. This combination of resources and skills will enable Victorian architectural firms to optimize their design processes and technology use, it allows us to fill a gap in the Victorian marketplace and address other important design markets and better serve a wider range of clients. The Joint Venture business will trade throughout Victoria as “AEC MicroCADD”.

To officially launch this partnership, AEC MicroCADD will host the next CAD Manager Conference at the Rydges Hotel in Melbourne on Tuesday the 22nd on November 2005. We encourage all CAD Managers to attend this conference. Please contact us on 1300 368 609 to obtain any additional information or to reserve your place as seating is limited.

About MicroCADD Pty Ltd

MicroCADD Pty Ltd is an independent, wholly Australian-owned computer-aided design (CAD) multimedia and network consultancy.

Established in Richmond, Melbourne in 1990, MicroCADD has experienced a consistent growth in sales since this time. The staff at MicroCADD are a team of individuals, each averaging twelve years experience in the software and hardware industry specializing in CAD and BIM software sales, support and customization.

MicroCADD is a recognised Autodesk System Centre (ASC) and an authorized Autodesk Training Centre, specializing in sales and training of AutoCAD, Autodesk Revit and other Autodesk based platform technologies.

MicroCADD can provide you with a total solution including high performance Pentium 4 or Xeon workstations for CAD, Windows 2003 based networks, Internet & Email configuration and Web access as well as a full range of peripherals such as printers and plotters.

About AEC Systems Pty Ltd

AEC Systems Pty Ltd were established in Sydney NSW in 1996 and are now recognized as one of the leading CAD and I.T solution providers throughout Australia with office in VIC, NSW, QLD, WA, SA & TAS. We are committed to providing the highest quality, most reliable, specialist software & hardware services to the following markets:

- Architectural
- Mapping/Spatial
- Construction
- Civil and
- General engineering

We believe that service providers need to have extensive experience in the planning, design and implementation of large integrated systems and networks and the ability to migrate existing systems to new and more effective technologies.

It is our experience that the KEY SUCCESS FACTORS for the provision of information technology services are:

- focus on client requirements, not technology
- use of industry standard products and practices which are matched to the clients' requirements and technology platforms

We offer our services to architectural & engineering businesses in Australia through seven business units:

- Network Services
- AEC Applications
- Australia-wide Support
- Training
- Software Development and Consulting Services
- Hardware & Software sales
- Printing Solutions
